BARVEMBER 2022

The Daily Challenge

5 Oliver and Alisha share the cost of a new sofa. They each pay a different amount.

- Oliver has $\frac{5}{8}$ of the amount of money Alisha has.
- Oliver pays $\frac{5}{9}$ of the cost of the sofa using $\frac{2}{3}$ of his money.
- Alisha pays the rest and she has £512 left.

How much did the sofa cost?
