BARVEMBER 2020

White Rose Maths

3 Dave has a bag of flour that he shares with 2 friends.

- The bag contains $\frac{7}{8}$ kg of flour.
- Laura uses $\frac{1}{2}$ kg of the flour to make a cake.
- Peter uses $\frac{1}{4}$ kg of flour to make some biscuits.

How much flour does Dave have left?

4 Amir and Eva are thinking of the same number.

- Amir doubles the number and adds 7
- Eva triples the number and subtracts 9

They get the same answer.

What number are they thinking of?
