

KIRF: I know the 3 times table ($\times$ and $\div$)

A times table is a list of multiples of the given number. They are very important for many calculations. This half term, the children will be learning their 3 times tables including the division facts.

Questions to ask at home

What is 3 **multiplied by** 8?

What is 8 **times** 3?

What is 24 **divided by** 3?

What can this look like?

Concrete:

Pictorial:

Abstract: $2 \times 3 = 6$

Key vocabulary

3 **multiplied by** 6 is **equal to** 18

5 **times** 3 and 3 **times** 5 are **equivalent**

30 **shared by** 10 is **equal to** 3

27 **divided by** 9 **equals** 3

Things to challenge

If your child becomes confident with these multiplications try them with missing number questions e.g.

$$3 \times \bigcirc = 18 \quad \text{or} \quad \bigcirc \div 3 = 11$$

Things to try

Chants- Practice chanting the times table.

Everyday Objects- Gather together objects and separate them into groups of 3.

You tube – There are lots of Times Table songs on You Tube to aid learning, why not try one out.

TTRock Stars – try to log on as much as possible - just 5 minutes practice a day makes a big difference.
