Parent Forum
Inclusion

28 January 2026

Agenda

- What is Inclusion?
- Support for children with SEND
- External professional services
- Requesting an EHCP
- Social, Emotional and Mental Health support
- Support for children in care, looked after children and pupil premium
- Support for families

What is Inclusion?

Inclusion means that *every child belongs, is valued, and is supported to succeed*—whatever their background or needs.

In our school, inclusion includes:

- **Children with SEND** (Special Educational Needs and/or Disabilities)
- **Children in Care (CiC) and Looked After Children (LAC)**
- **Children eligible for Pupil Premium**
- **Children with English as an Additional Language (EAL)**

Inclusion is not about treating everyone the same.
It's about **understanding individual needs** and providing the **right support, adjustments, and opportunities** so every child can thrive academically, socially, and emotionally.

Support for children with SEND (1)

We use a range of supports to ensure every child receives the help they need to succeed.

One Page Profiles
These give a clear picture of each child — their strengths, what's important to them, and how best to support them in school.

SEND Support Plans
Children with additional needs may have a SEND Support Plan, which sets out targets and strategies tailored to them.
These plans are **reviewed termly** with parents and staff to check progress and adjust support.

Support for children with SEND (2)

Education, Health and Care Plans (EHCPs)

Some children have an EHCP, which provides more detailed, specialist support. EHCPs are reviewed **termly** in school, with a **formal annual review** involving parents and professionals.

We work closely with families and outside agencies to make sure support is consistent, joined-up, and focused on each child's wellbeing and progress.

External professional services (1)

Sometimes children benefit from support from specialist professionals who work alongside the school and families.

Educational Psychology (EP)
Educational Psychologists help us understand how children learn, think, and feel.
They offer advice and strategies to support learning, behaviour, and emotional wellbeing.

SEND Support Services
These specialist teams provide guidance and practical support for children with additional needs.
They work with school staff to recommend strategies, resources, and interventions.

External professional services (2)

Speech and Language Therapy (SALT)

Speech and Language Therapists support children with communication, language, and speech needs.

They help children develop understanding, expressive language, and social communication skills.

We work closely with these professionals to ensure support is consistent and tailored to each child.

Requesting an EHCP

Supporting You Through the EHCP Journey

We work closely with families whose children may need an Education, Health and Care Plan (EHCP), offering clear guidance and practical support at every stage of the process.

Coordinating Professional Reports

We organise and liaise with relevant external professionals to ensure the right reports are in place, including:

Educational Psychologists, Speech and Language Therapists, Occupational Therapists or other health or specialist professionals as required.

Our Aim

To reduce stress for families and ensure each child's needs are clearly evidenced, giving them the best possible chance of securing the right support.

Social, Emotional and Mental Health support (1)

We provide targeted support to help children develop emotional wellbeing, confidence, and positive relationships.

The Aviary (Nurture Room)
The Aviary is a calm, supportive space where children can build emotional skills and feel safe and understood.

Targeted Nurture Sessions
Children are identified for support and may attend **weekly sessions** focused on emotional regulation, confidence, and social skills.

Support is led by our **Nurture Lead**, **Miss Bird**.

Social, Emotional and Mental Health support (2)

Young Minds Matter Charity
We work with **Young Minds Matter**, who visit school **once a week** to spend time with identified children, offering additional emotional support.

These supports help children feel ready to learn, build resilience, and succeed both in and out of the classroom.

EMPOWERING YOUNG VOICES

Our Friendship Room

Support for children in care, looked after children and pupil premium

We provide targeted support to ensure every child can achieve their potential, regardless of background.

Children in Care (CiC) / Looked After Children (LAC)
We work closely with carers, social workers, and families to provide extra academic and emotional support. Regular **reviews and progress tracking** help ensure each child's needs are met.

Pupil Premium Focus
Funding is used to support children who may face additional challenges, helping to close gaps in learning and life opportunities. Support includes **pre-teaching, interventions, resources, and mentoring**.

Outcome-Focused Approach
We track progress carefully and aim to ensure all children achieve their best academically, socially, and emotionally.

Support for families

We know that supporting a child works best when families feel supported too.

Early Support
We work with families as early as possible to identify concerns, share advice, and put support in place before difficulties escalate.

Working with the Local Authority
We liaise closely with the Local Authority to access guidance, services, and additional support where needed.

This includes advice around SEND processes, assessments, and available provision.
We aim to work in partnership with families, keeping communication open and ensuring parents feel listened to and supported every step of the way.

Family Information Services (FIS)

Warwickshire County Council offers the following support for families:

- Parenting support
- Childcare
- Family relationships
- Housing, debt and money
- Special Educational Needs and Disabilities
- Health and wellbeing
- Early Support
- Holiday activities and Food

You can contact Mrs Cathline about this support or contact the FIS directly:
