Arete Outdoor Education Centre

Arete Outdoor Centre is a great place with high quality equipment and facility's . It will challenge you but all the activities are really fun and safe. You will also never be pushed to do something you don't want to do. You will come out of your stay as a braver and better person.

ARETE OUTDOOR CENTRE

Learning through adventure

DUTIES

At arete children will learn how to be responsible. Not just things like making their bed, drinking enough water. It is also things like helping out with house work. At the start of your stay at arete you will be assigned duties. You will do them with your activities groups and there is ones for the morning and the evenings. You will do your duties after breakfast and dinner. Some of the jobs include stuff like drying up, cleaning mini buses, sweeping the floor and lots more. You will come out of your stay more responsible then before.

Accommodation and food

At arete the days are very tiering so there is loads of rooms with sofas, board game and pool tables. Also the room used for mealtimes is free to go around. Each dorm has 2-5 sets of bunk beds and they can sleep 4-10 people. The food at arete is great quality with options that every one will enjoy. There is a onsite kitchen which cooks the food fresh.; they are also very eco friendly so that will increase there deliciousness.

Outdoor education and benefits

Arete outdoor education centre teaches learning through adventure. It helps children's understanding of nature, plants, and animals. The instructors will stop and tell you about the history of the site. Outdoor education is great as it teaches you by doing the thing not just by sitting in a classroom and watching someone else do it. The location of arete is incredible. It has amazing staff with impeccable manners who are always happy to help. The facilities are great. Arete does not disappoint.

Equipment and safety

All of the equipment and recourses are checked and reviewed regularly. The activities and climbing routes are used publicly and professionally so they are all 100% safe.
